

Some people believe that teenagers use of the internet should be limited; Others believe it is a resource that they must have for homework and other projects. Discuss these views and give your own opinion.

Nowadays, there are a lot of things on internet, teenagers can relax and learn on internet. Therefore, their parents have a lot of controversy, as some people do not agree their teenagers use internet so much, and some agree. In this essay, I will discuss teenagers use of the internet should be limited or not and give my opinion on this issue.

There are many reasons to limit the teenagers use the internet. Firstly, teenagers spend too much time to play games. In fact, the number of teenagers plays games increased slightly in many years ago. Specially, in recent years, the number of teenager plays games increased sharply. Yesterday, I read a new article, it told about a teenager plays game in 2 days without breaking in internet game shop. Finally, he was unconscious and bended down on the keyboard. Secondly, teenagers can read porno magazines, videos... on internet.

In addition, they can play sexual games on internet. These games taught them how to cheat a girl, make love with a girl, rape women ... A teen boy raped teen girl because he watched porno videos on internet and wanted to ape these videos last year in my ward.

However, there are also many advantages when use internet. It is a resource that teenagers must have for homework and other projects. There are many information and videos... about sciences, technologies, arts, music ... on internet. These are very useful when teenagers have to do homework or research a project. Last week, my younger brother had a homework, which described a jumping spider. He have been finished this homework with help of internet. Further more, the most of things on internet are free. Therefore, they can improve their knowledge without money. Moreover, they can improve their knowledge any time they want.

All in all, in my opinion, I think limited teenagers use of the internet or not limited depend on teenagers. If they use internet for studying and research, we should not be limited. If they use internet for playing games or accessing harmful website, we should limited. In my case, I will install software so that teenagers cannot access harmful website. In addition, the government has rules to limited time a gamer player can play in a day.
